STORM RECOVERY REPORT-STATUS UPDATE

As of Thursday, February 17, 2005, there were 32 road closures in the unincorporated County area. As a result of the current storm, there have been an additional 49 road closures (see Attachment A) of which 43 are completely closed, 3 are open to residents and emergency vehicles only, and 3 have limited access.

There were two additional roads with major structural damage from the recent rain: Piuma Road at Culvert Marker 2.81 and Little Tujunga Canyon Road from Garrick Avenue to Gold Creek Road. Malibu Canyon Road from Mulholland Highway to Pacific Coast Highway was closed due to mudslides and should be reopened within the next couple of days. Forty-seven of the 49 roads are expected to be reopened by Friday, February 25, 2005. Piuma Road and Little Tujunga Canyon Road will require the preparation of plans and will be opened at the earliest possible dates. The majority of the road closures occurred in the North County.

Our Flood Maintenance staff reported a stabilizer suffered failure in the Santa Clara River South Fork, right bank, upstream of Magic Mountain Parkway. Our crew is continuing their debris cleanout efforts of the flood control debris basins.

Our Building and Safety staff inspected 24 private properties within unincorporated County areas and the City of Duarte. Of these, 7 were red tagged (restricted access) and 6 structures were yellow tagged (limited access). The estimated damage to these private structures is approximately \$200,000. The Cities of Hacienda Heights and Rowland Heights were the most impacted unincorporated County areas. The most significant damage occurred in Hacienda Heights at a condo complex on Sierra Pass Way. Three people were temporarily trapped in the condo.

Each Supervisor

Page 2

To date, 35 storm damage projects have been identified, which will require the preparation of design plans and will be contracted out for construction. The remainder of the repair work is being accomplished through our own forces. We continue to meet weekly with all the affected divisions in an effort to expedite the delivery of the projects. We have identified the following projects as top priority due to their impacts on transportation and/or public safety.

- Bouquet Canyon Road
- San Francisquito Canyon Road
- Saddle Peak Road
- Hillside Drive at Culvert Marker 6.12
- Las Flores Canyon Road
- Glendora Mountain Road

If you have any questions, please contact me directly or your staff may contact Patrick DeChellis, Assistant Deputy Director, at (626) 458-3900.

**DEPARTMENT OF PUBLIC WORKS
RECOVERY REPORT FOR THE 2004-05 WINTER RAINSTORMS**

February 22, 2005
8 a.m.

Note: Any new and/or updated information has been italicized.

FEMA PRELIMINARY DAMAGE ASSESSMENT

Total DPW Cost Estimates to date	\$52,487,000 *
Road Maintenance	\$37,557,000
Flood Maintenance	\$10,225,000
Waterworks	\$ 3,780,000
Water Resources	\$ 925,000

* These costs include overtime, equipment and materials, and exclude regular labor costs.

Below is the latest expenditure data for the January 2005 storm event:

Total Expenditures (including overtime)	\$5,274,075.47**	\$5,927,218.49**
Total Encumbrances	\$2,209,515.24	\$2,736,743.96
Total Expenditures & Encumbrances	\$7,483,590.71	\$8,663,962.45
 Total Overtime	 \$1,317,517.35	 \$1,695,108.72

**These actual costs include straight time force account labor.

IMPACTS ON TRANSPORTATION

In summary, there are presently 44 **57** roads completely closed and 48 **24** partially closed due to extensive damages. These numbers reflect several additional road closures that occurred as a result of the past weekend storm event. As a result of the recent storm event, February **17-21**, 2005, **49** roadways were closed or partially closed. ***All of these roads, except two, are expected to be reopened by Friday, February 25, 2005, barring additional storm events.*** Public Works will continue to work to reopen the remaining 28 **34** roads and repair all storm-related damages as quickly as possible. Refer to Attachment A for listing of road closures and estimated reopening dates for the unincorporated County area.

TRANSIT

Santa Clarita Transit Route 4, serving Bouquet Canyon Road, remains temporarily shortlined during early morning and evening hours at Shadow Valley Lane. Effective 3 p.m. on February 3, 2005, service to the northern terminus of the route will only be operational during daylight hours. This level of operation will remain in effect until Bouquet Canyon Road is fully restored between Shadow Valley Lane and the LARC Ranch.

Antelope Valley Transit Authority Route 9, connecting the Antelope Valley Mall with Lake Los Angeles, is running abbreviated service from the Antelope Valley Mall to 110th Street East and Avenue R (Little Rock area). Palmdale Road and all other routes into Lake Los Angeles from the south side are currently closed. In addition, the Lake Los Angeles Shuttle is not running. The Antelope Valley Transit Authority is researching all possible routes into the Lake Los Angeles area to determine an appropriate route to reinstitute service.

EMERGENCY CONTRACTS

We have not executed any emergency construction contracts to date, however, we have executed service contracts, added additional vendors, and increased the service contract to a not-to-exceed contract.

PRIVATE PROPERTY DAMAGE

During the period of February 17, 2005 through February 21, 2005, Building and Safety Division was called to respond to the mudslide in Hacienda Heights at the intersection of Sierra Pass Way and Sierra Peak Way. Building and Safety inspected 24 private properties within the unincorporated County areas and the City of Duarte. The estimated damage to these private properties is approximately \$200,000. Seven of these structures are currently red-tagged (restricted access) and six are currently yellow tagged (limited access).

Building and Safety has inspected ***a total of 338 50*** private properties with reported structural damage within the unincorporated County areas and the Cities of Carson, ***Duarte***, La Canada Flintridge, ***Commerce, Lomita, and Rolling Hills Estates***. The estimated damage to these private properties is approximately ***\$1.15 \$1.5*** million. ***Eight Sixteen*** of these structures are currently red tagged (restricting access) and ***twelve 12*** are yellow tagged (limiting access).

~~Building and Safety also inspected 168 private properties with reported nonstructural damage within the unincorporated County areas and the Cities of Commerce, La Canada Flintridge, Lomita, and Rolling Hills Estates.~~

IMPACTS ON FLOOD CONTROL SYSTEM

A stabilizer suffered failure in the Santa Clara River South Fork, right bank, upstream of Magic Mountain Parkway.

Flood Maintenance Division has completed ~~60~~ **66** repair projects by force account and is continuing work on ~~96~~ **90** repair projects by force account. An additional 16 repair projects are to be contracted out.

IMPACTS ON WATERWORKS SYSTEMS

Waterworks stated that they have experienced additional damages over the weekend.

- ***A leak occurred on an 8-inch-diameter watermain near 5884 Ramirez Canyon. Four customers are still out of water.***
- ***A leak occurred on a water main near 22053 Pacific Coast Highway under a storm drain. A section of the pipeline needs to be replaced.***
- ***A fire hydrant was hit by a car near 19562 Pacific Coast Highway causing damage to the service. The pipe was temporarily put back together.***

OTHER JURISDICTIONS

CALTRANS

Interstate 5 at Templin Highway

Geologists and engineers continue to evaluate the area. Currently all six lanes (three southbound, 3 northbound) are open; however, lanes may be closed if conditions worsen. Mudslides are still active and the number of traffic lanes may be reduced if the conditions worsen. The full restoration of the roadway is expected to be completed by July 2005.

State Route 27, TOPANGA CANYON BOULEVARD

Caltrans reports that Topanga Canyon Boulevard is OPEN PART-TIME to both directions of traffic between 6 a.m. to 9 a.m. and 3 p.m. to 9 p.m. Only one lane is open for both directions of traffic; therefore, a traffic flagging operation is in place to alternate directions of traffic as needed. Proposed repairs include a 180-foot-long retaining wall and rebuilding of the roadway. Estimated cost is \$1.2 million. The road is currently scheduled to fully reopen in May 2005.

State Route 39, North of City of Azusa

Multiple sections were completely washed out and the last eight miles continue to be inaccessible. Resulting closure is of unknown duration. Caltrans also reports that two families located at Post Marker 34.79 and Post Marker 35.5, respectively, are trapped behind the major slide washout at Post marker 34.04 and are refusing to evacuate. These families are able to obtain supplies by crossing the slide area on foot then getting rides from their family and/or friends on the other side of the slide.

State Route 1

One lane was closed due to mudslides from Topanga Canyon to Las Flores Canyon Road.

Interstate 101 at Santa Monica Boulevard

Flooding caused the California Highway Patrol to close all lanes on Monday, February 21, 2005. Northbound traffic was being diverted off the freeway at Santa Monica Boulevard and southbound traffic was detoured at Sunset Boulevard. The freeway was reopened about 11:45 p.m. on Monday, February 21, 2005.

CITY OF LOS ANGELES (per City's website, <http://www.updatela.com/>)

- Mullholland at Coldwater Canyon-Street closure due to instability of the roadway.
- Woodstock between Willowglen and Ada Street-Street closed
- *Tujunga Avenue between Penrose Street and Strathern Street-closed due to approximately 50-foot deep sinkhole*
- *Woodstock Road between Bulwer Drive and Ada Street-closed due to washout*
- *Little Tujunga Canyon Road at Osborne Street-closed due to bridge failure.*
- *Tuxford Street at San Fernando Road-closed due to flooding.*
- *Gaffey Street between Westmont Street and Anaheim Street-closed due to flooding.*
- *Beverly Boulevard between Western Avenue and Wilton Place-closed due to flooding.*
- *Sepulveda Basin-flooded.*
- *Stadium Way between Elysian Park Drive and Chavez Ravine Way-closed.*
- *Stadium Way between Riverside and Academy Road-closed.*
- *Freeway I-5 southbound off-ramp to Stadium Way-closed.*

CITY OF LONG BEACH

- *West Arlington Street-Flooding occurred along the 2300 Block of West Arlington Street.*

CITY OF CARSON

- **Santa Fe Avenue at the UPRR underpass experienced flooding.**

CITY OF SANTA CLARITA

- **Flooding continued in the Polynesian Mobile Home Park.**
